4. GPS Tracking System www.secumore1818.com

Website: www.secumore1818.com

Default IMEI as ID Number user name, password: 123456.

<mark>If failed, please contact supplier to register IMEI.</mark>

Attentions before login GPS Software:

●Make sure you configured APN SMS as command list

● For first using put device outdoor to get acquire signal to show location on map (icon on map will show colored icon)

●Gray color means device never get GPS signal/SIM card has no GPRS data service/wrong configured APN (won't show correct location)

●GPS only update location at every 10mins(accuracy 10m). If device indoor, map icon will show "LBS" status (accuracy100-1000meters)

If need Accurate location, move to outdoor; Indoor is not accurate locating.
